

Hunter 340 Mainsail Reefing

Deploying Mainsail

Turn into the wind. Release clutches on both the furling line and outhaul. Simultaneously pull on outhaul while unfurling with the left side blue furling line. Engage clutches when finished.

Furling/Reefing

Suggested Approximate Reefed Positions (True Wind):

10-15 kn - Full Jib, 1/2 Main

15-20 kn - Full Jib, 1/3 Main

20-30 kn - 1/2 Jib, 1/3 Main

>30 kn - 1/3 Main

Turn into the wind. Release clutches on both the furling line and outhaul. Pull on the right side blue furling line until mainsail is furled to the desired position. If in a reefed position, engage clutches while pulling firmly on both blue furling lines to freeze the sail in position. Engage clutches when finished.
